Ex-President Cleveland writes that he can find no evidence to support the claim that "Jacksonian Democracy sanctions the degradation of the peo-ple's currency." And so Mr. Cleve-land differ from Mr. Bayax, who contends that both Jackson and Jer-FERSON were in reality Populists.

MANUFACTURERS and their employes must have been extremely busy during the year 1899. They increased their importations of raw material for use in manufacturing 33% over the busy year of 1898 and 65% over the last year under the Wilson Law, while ports of manufactures increased 23% er last year and 50% over the last ear of the Wilson Law.

THE British losses in Africa in the last 90 days are officially reported at over 7,000 men killed, wounded and captured. This is many times as great as the entire losses of the United States in the eighteen months since the War with Spain began and was followed by that in the Philippines. Yet there is still found occasionally even with his pers pure to continue was with his torn pure to continue man with the iron nerve to continue

not been enthusiastic over this privilege. Free-silver speeches seem to be
things of the dead and almost forgotten past.

Mr. Bryan cheerfully announces
wherever he goes that the silver question is just as important as ever and
is not to be abandoned. This will be
interesting news to the Mine Workers'
Association whose National Convention at Indianapolis the other day tabled a free-coinage resolution amid
cries of "We want no 16 to 1," and
will also strike the average laboring
man as somewhat absurd in view of
the 1896 statements and the prosperity which has followed the rejection
of the silver panacea offered at that
time.

and 1896 statements and the prosperity which has followed the rejection of the silver panacea offered at that time.

EVERY report of Bradstreet's and Dun's is a confirmation of the statements that our industries are all prosperous and upon a stable basis. Farmers are paying off their mortgages in millions of dollars, and are no longer anxious to abandon their farms and move away. Farm property is grad-sily but surely rising in value. There is no longer a glut in the markets for manufactures, and factories are voluntarily raising the wages of their workmen all over the country. The party of calamity and opposition and hard times finds itself in sore straits for any reasonable issue to ask voters to rally behind.

EXPORTS of iron and steel manufactures amounted to \$105,000,000 in 1899, and the imports to only \$15,000,000. In 1880, twenty years ago, the exports amounted to only \$13,000,000. With this practical evidence of the benefit of Protection there are very few workingmen or manufacturers who will listen with any patience to Free-trade arguments in the coming campaign.

COMPLAINT was made about the way in which the Currency Bill was "rail-roaded through the House" without giving members a chance to exploit their silver views. There has been, however, no restraint on speech in the Senate, and Democratic Senators have hot been enthusiated over this privilege. Free-silver speeches seem to be things of the dead and almost forgotten past.

Harland Whittaker Taken to the Lou ville Jail But Many Think That He is Innocent.

Frankfort, Ky., Jan. 31.—William Goebel, state senator from Kenton county and democratic contestant for the office of governor of the state, who was so foully shot down on the streets yesterday, is still alive. Harland Whittaker, a farmer from Butler county, the home county of Gov. Taylor, is nowin the jail at Louis-ville, charged with the crime. There is no direct evidence against Whittaker, and he was placed under arrest more because he was caught running from the building from which the shots were fired than for any other apparent reason. He denies in the most positive manner that he had any connection with the shooting or that he knew anything about it. He was running toward the scene of the shooting, and not away from it, when he was caught Goebel was on his way o'clock. Mr. Goebel was on his way

age of 79 years, of cancer of the face.

The Cincinnati Commercial Tribune yesterday said: "Business friends of John L. Shurf, special agent of the Union Central Life, were congratulating him on two recent successes. One, the securing of funds toward the effort to locate the next National Democratic Convention here, and his latest success \$100,000 policy in the Union Central, a Cincinnati company. Shuff had some warm competition from out-of-town companies. This is the largest single-policy of life insurance ever written in Cincinnati proper."

Easter comes on April 15th this year. Lent commences forty days earlier. The date for Easter is unusually late, and in fact is within one week of the latest possible date for the feast. The setting of the date is by means of the Paschal moon, and on this account it is impossible for it to come earlier than March 21st or later than April 25th
